

# Process Checks By Phone & Online

**With our secure gateway create and process Electronic Checks, send Email Invoices, and even Accept Payments Online (or integrate into your current systems via API). Get SAME DAY and NEXT DAY deposit of your transactions at All Banks in the continental United States.**

# Payment Buttons

We offer you the ability to place payment buttons on your website. This allows for flexibility and gives you a secure online payment function. Buttons are easily created on our gateway and can be placed on any website on any platform using standard code that we provide.

# BillPay

Pay Bills and Deposit Money to Accounts  
from Anywhere in the World!

## Same Day Deposit

**Nearly all processors offer 3-5 day funding on your money. Have you ever asked why? We are pretty confident the year 2000 was almost a generation ago. We are happy to report that at we can deliver your checks Same Day, and in some cases in as little as an hour!**

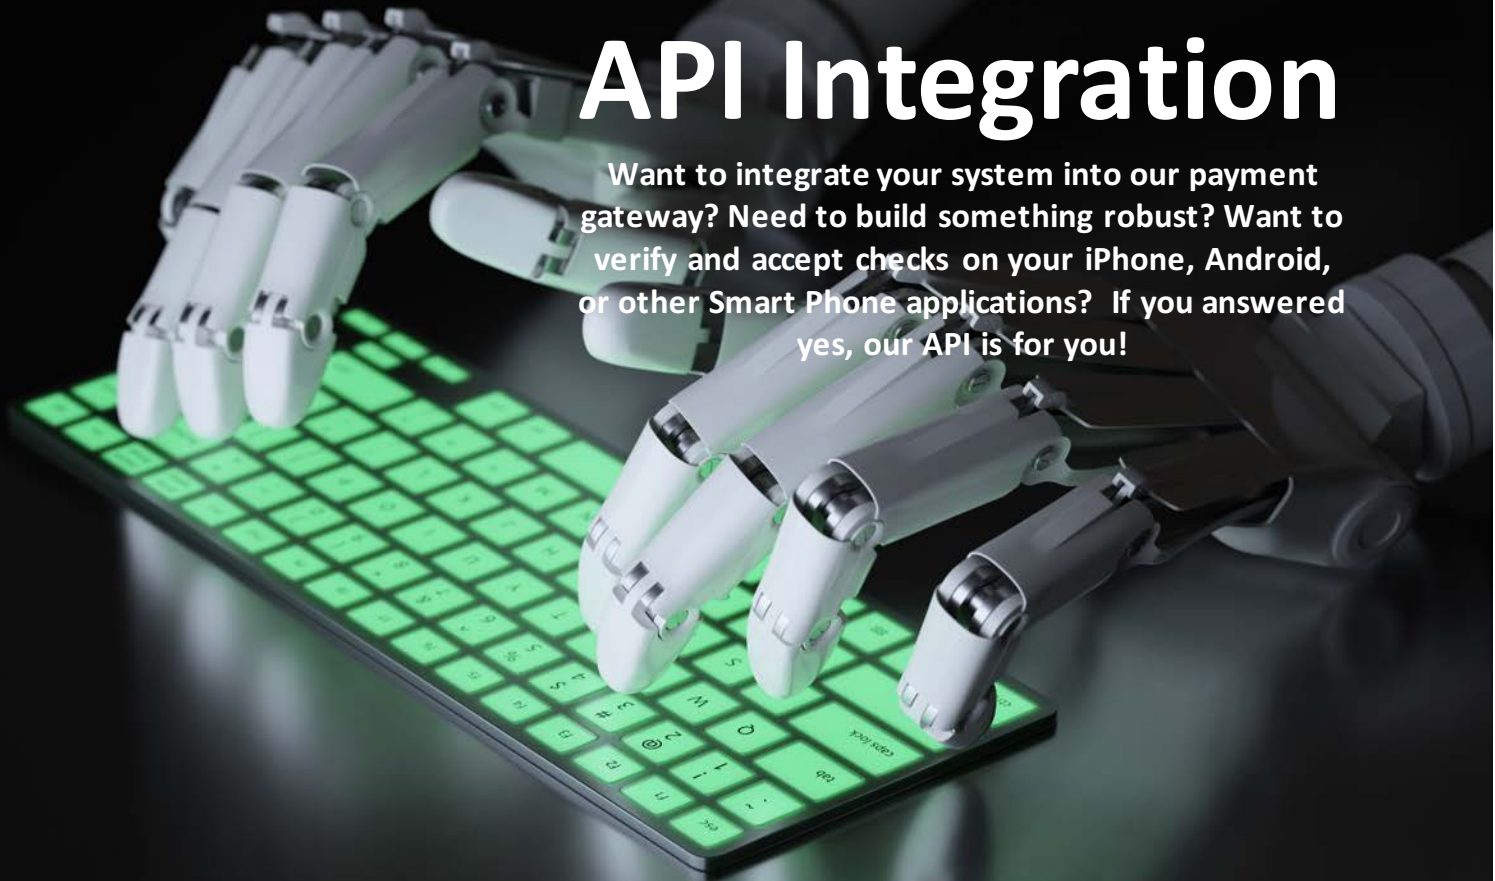

# Shopping Cart Integration

Yes, we are already integrated with many major shopping carts.

# API Integration

Want to integrate your system into our payment gateway? Need to build something robust? Want to verify and accept checks on your iPhone, Android, or other Smart Phone applications? If you answered yes, our API is for you!

# Check Verification

Short of calling your local Private Detective, how do you know if a check is good? We verify ALL checks you enter into our system.

# Secure Data Storage

*Store customer data with confidence. We have the world's best encryption system. We don't use basics. We go all out, spending a small fortune keeping your information under lock and key.*

## *Customer Support*

*Money is Serious Business. We know you work hard, so we work harder for you!*

*Our support center is not outsourced, and we do not hire dummies. You can call and email with confidence knowing we will take good care of you and all of your deposits.*
